

### **RACING WITH REAL RALLY CARS:**

you have an opportunity to race on Estonias biggest 2,3 km long double track with real BMW or Lada rally cars. Before racing we will give you the safety instruction and you need to sign a statement of liability. The minimum number of laps is 2. One 2,3 km long lap (that consist of inner and outer lap) with **BMW rally car costs 30 EUR** and with **Lada 35 EUR**. The price includes track and rally car rental, safety instruction, helmet and also timing. For groups we usually arrange rally sprint competitions, it means 2 car race on the double track at the same time and if each participant drives 2 full laps, it takes about 10 minutes. For bigger groups (40 / 50 pax and more) we usually use 4 cars – 2 of them are racing, while the next 2 are preparing for the race – it helps to save some time (for example, if there are 40 persons, it takes about 3 hours).

### **RALLY CARS INSURANCE:**

LaitseRallyPark offers rally cars insurance, to lower your own risks in case anything should happen with the car on our double track. The insurance works like casco insurance, where you need to pay **80 EUR** (doesn't matter, how big is the group) and after that, your own risks will be maximum up to 600 EUR. If you decide not to take it, then your own responsibility is maximum up to 6395 EUR. With responsible drivers we will promise, that nothing will happen – the race is fun and gives a lot of adrenaline. But if somebody crashes the car, then the group needs to take new insurance to keep the risks continuously low.

### **TRICKY CAR DRIVING:**

is a very funny activity, where each participant gets to drive with the car, that goes the opposite way. It means, that if you are turning the steering wheel left, the car goes right. We can also organize a tricky car driving race, where every driver needs to handle the car on special slalom track and we are timing it. Driving with tricky car costs **130 EUR / 1 hour**. For bigger groups we plan the time depending on rally race.

### **VISITING UNIQUE CARS COLLECTION:**

LaitseRallyPark owner has a very exclusive and unique car collection. There are about 12 cars and we offer our visitors an opportunity to see the entire collection! It costs **4 EUR per person**. In summer, it is also possible to rent the cars for fun-drives or weddings, but only with our own driver.

### **CO-DRIVE NEXT TO PROFESSIONAL PILOT:**

in our team works 6-time Estonian Champion Einar Laipaik. It is very exciting to sit next to Einar Laipaik in his racing car BMW M3 and feel real speed on a special stage in the forest, where the maximum speed is about 180-200 km per hour. Forest co-drive costs **165 EUR** for one visitor. We can also make a film of your emotions and reactions while driving next to our professional pilot.

**REWARDING:**

after rallysprint competition we usually have rewarding on our podium. Top three racers get trophies and sparkling wines and all the participants get a diploma. The cups set (3 pieces) and 3 sparkling wines cost **56 EUR**, one diploma costs **0,70 EUR**.

**SAUNA COTTAGES:**

if the group is interested in sauna, then we have 2 cottages (both fit maximum 15 persons, so we can offer it maximum up to 30 participants). Sauna costs **32 EUR** for one hour. After a long day of different activities, sauna can be very relaxing. If the group decides to go to the sauna, we can also organize catering, drinks and towels – that is for an extra cost.

**CATERING:**

with smaller groups, who sometimes spend in our park maybe 1 or 2 hours, it is enough to serve some drinks and snacks on arrival. For bigger groups on the other hand, with whom the planned event can take 4 hours or even a whole day, we offer a nice warm meal – lunch or dinner. Today we offer catering through our very good co-partner, who is willing to serve coffee breaks, lunches with soup and pies, or even 3-course menus. Usually we serve lunch or dinner in our cafe or sauna cottages. If you are interested in our menus, then I would be very glad to send them for you.

**DON`T RACE ON STREET – RACE ON TRACK!**
